Techpanel inc is a professional acoustic material manufacturer, which is committed to the R&D of polyester Pber. Our major productions include all kind of Pber panel (batts) with surface coating, antibacterial treatment, fire resistance, acoustical solutions.

Techpanel Inc is located in Suzhou of China, near to Hongqiao airport Shanghai.

Techpanel Inc takes regional advantages into a modern international logistics and services in key markets such as Europe, North America and Southeast Asia with fastest delivery service.

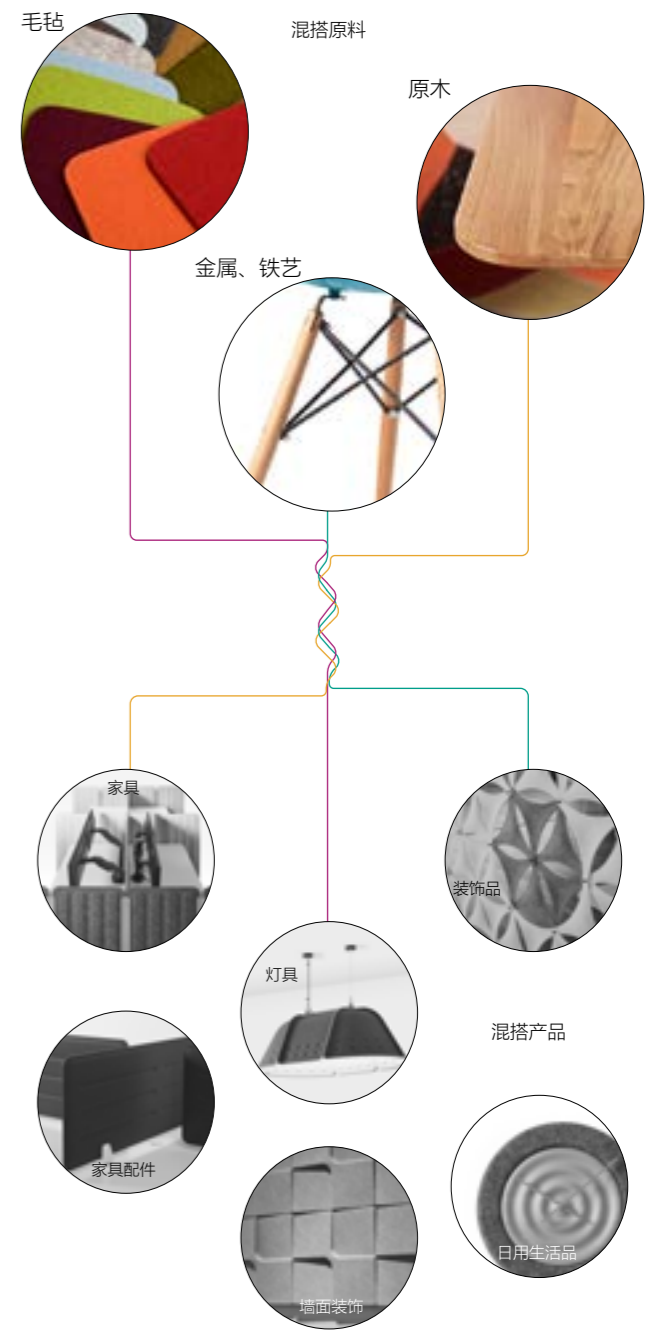

Techpanel Inc also has been concerned about the sustainable developing, specially recycling plastic bottle chips, wasted polyester fabric and so on.

We keep going to being recycled and recycling material for our future life.

PET 板

是一种以聚酯纤维为原料经热压成型,可以根据需求制成软硬不同的卷料或片料,并通过 3d 热压成型、裁剪、冲压、折叠、车缝等工序制成各种产品。已经广泛应用于墙面装修装饰、饰品礼品、座椅沙发、家具配件、生活日用品等领域。

混搭潮流, 我们最 IN!

PET panel is a kind of roll material or piece material that is hot pressed by polyester fiber and can be made into different hardness. It can be made into different products by 3D hot pressing, cutting, punching, folding and sewing. It's widely used for wall decoration, gifts, chairs, sofas, furniture accessories and daily necessities.

P140 Partition 主要原料是聚酯纤维吸音板，产品表面的凹凸结构，使这款工位具有很好的吸音降噪，扩散回音的功能。实际测试结果均优于布、木、金属材质的传统屏风。

The main raw material of P140 Partition is polyester fiber acoustic panel. The concave-convex surface of the product makes this work station has good sound absorption, noise reduction and diffusion echo function. The actual test results are superior to the traditional screens of cloth, wood and metal.

检测报告

Examining Report

- 3D crimp staple fiber and recycled PET
- Melted PET filaments jointed together
- Combed filament with needle punched
- Color master batch inject filament
- Low water permeability and moisture absorption
- Horizontal and vertical fibers intertwined together
- ASTM E84 testing for 43
- NRC ratings 0.8 with cavity
- No toxic, no odor and low VOC
- No risk of skin irritation or respiratory problems
- Flexible facade finishing with pin able
- Heat treatment up to 200 degrees
- Stable PET material and panel structure
- Low-carbon and environmentally unharmed
- Made from 100% polyester
- No glue and adhesive inside
- Structurally rigid
- Color duration
- Water resistant
- Impact resistant
- Fire Retardant
- Great acoustical performance
- Formaldehyde free
- Healthcare
- Tackable surface
- Bacteria and fungi resistant
- At least 10-year durability guarantee
- Recycled and recyclable
